

Questionnaire

Questionnaire for HCI Assignment 1, Version 2

Prepared by Banu

OVERVIEW & PURPOSE

This questionnaire is a follow-up to the abstract ideation interview phase. The purpose is to further entertain the ideas we've already generated. The aim is to collect information relevant to the conceptualized mobile application and create a more concrete sense of the disciplines involved. Each section of the questionnaire is designed to be informative to our team regarding one of the aspects of the project.

General demographics

1. What's your position?
2. What mobile phone do you use?
3. What are the things that cause you stress?
4. How does technology help you cope with stress and worry?
5. How often do you face deadlines?
6. How often do you feel that your mental health isn't at its best?

Personal assistant

1. Do you have a personal assistant on your phone?
 - a. If yes, for what do you use it?
 - b. If no, why don't you use it?
2. Do you use your phone to schedule meetings and deadlines?
3. Do you use your phone to make action plans?
4. Do you use your phone to navigate roads?
5. Do you use your phone to research topics for work or personal curiosity?
6. Would you find any use for a personal assistant in real life?
7. What tasks would you delegate to a personal assistant?

Emergency management

1. How quickly do you find the things you're looking for on the internet?
2. What do you do when facing a deadline that is near?
3. Do you ever need help figuring out what to do when stressed?
4. What feelings do you normally associate with the word "due date"?
5. How well do you assess risks?
6. Can you give examples of a few things you would consider an "emergency"? (mild or severe)

Psychiatrist

1. Would you have a serious conversation with a virtual partner?
2. Do you ever feel the need to talk through your own thoughts to understand them?
3. Have you ever been to a therapist?
4. In what situations would you say that a person needs a therapist?
5. Have you ever had trouble with feelings of panic, depression, helplessness, confusion.. etc?

Entertainment

Describe activity that will involve using the app for entertainment, such as asking it to tell a joke.

1. Have you ever had a conversation with an AI?
2. Do you watch movies or TV on your phone?
